

The Pageant opened in October 2000 and has since become a premier live music venue ranked in the top 10 internationally every year. This 33,000-square foot space not only allows for a superb concert experience, but can also be transformed into a creative backdrop for an elegant gala, a special gathering, professional meeting and more. The tiered main floor offers ample room for cabaret style or row seating and/or traditional dining tables. The balcony offers over 300 theatre style seats along with two separate elevated seating areas. The Pageant has a flexible capacity up to 2000 people, and can be scaled down to allow for more intimate or smaller events.
